Tsi Nahóten Karihwanákere No'nenk News Release

Commercial Misuse of Transfer Depot

For immediate release

(05 Tsiiothohrhkó:wa / January 2005)

The intent of the Transfer Depot is primarily for larger items and for community members that do not receive door-to-door garbage pickup service. The commercial misuse of services has placed a heavy financial burden on the Kahnawake Environment Protection Office with regard to the costs associated with solid waste disposal.

Recycling will significantly reduce the generation of waste destined for landfill sites. Businesses will also benefit from participating in the recycling program by reducing their overall cost of waste disposal.

We are asking for everyone's cooperation and assistance in this matter. Should you require further information in obtaining your own solid waste disposal containers or participating in the recycling program, please do not hesitate to contact the Kahnawake Environment Protection Office. We will be happy to provide you with this information.
