

Suspension of COVID-19 daily stats

For immediate release

Kahnawake – 10, Tsothohrhkó:wa/January 2022 at 3:30pm) The Kateri Memorial Hospital Centre and Public Safety Commission wishes to advise the community that, due to the current priority for COVID-19 PCR testing in Kahnawà:ke (and the rest of Quebec), it is not possible to provide daily updates on positive cases and related statistics at this time. This is due to the fact that COVID-19 testing sites are no longer providing tests to the general population, and we are unable to determine the number of active cases in the community.

Please note, although one of the priorities listed by the Quebec Ministry of Health and Social Services is for First Nation communities, this priority is in reference to remote First Nations communities and not Kahnawà:ke.

For all the latest information on COVID-19 news, current measures and restrictions, please visit the [Kahnawake 911 website](#).

We apologize for this inconvenience.
