## Hydro Tower removal project update

For immediate release

**(Kahnawake – 22, Enniskó:wa/March 2021)** The Mohawk Council of Kahnawà:ke (MCK) wishes to inform the community of works being carried out on the Hydro-Québec Line 2 Dismantlement project.

Contaminated soil removal, backfilling, and site restoration work took place last week at Tower #104 on the North Wall. Topsoil spreading will be completed today.

Decontamination of Tower #105 along the Seaway Road will begin today and should last approximately one (1) week. Work will also take place at Tower #90, on Tower Line Road, this Wednesday and Thursday. This work may result in minor traffic delays; however, the road will remain open.

The MCK thanks the community for their patience and cooperation.
