Roads in Tioweroton nearly impassible

(Kahnawake – 26, Onerahtókha/April 2019)

The Lands Unit of the Mohawk Council of Kahnawà:ke is advising the Community that road conditions in Tioweró:ton are making it extremely difficult for vehicles to travel.

The current rain and ongoing spring thaw are causing soft and muddy conditions on roads. That, combined with deep ruts, makes the roads nearly impassible. There is currently one vehicle stuck that cannot be moved until conditions change.

Caretakers are advising not to frequent the Territory unless necessary, and to allow the thaw and impassible road conditions to run its course.

Please contact the main Caretaker's cabin at (819) 321-3375 for more information on road and cabin conditions. We appreciate your patience during this time.
