Survey results for proposed Residency Law released

For Immediate Release

(Kahnawake – 28, Onerahtókha/April 2017) The Mohawk Council of Kahnawà:ke (MCK) announced today that the results of a survey regarding a proposed law on Residency have been made available for viewing at www.kahnawake.com/residency.

The survey was conducted over several weeks beginning in late December 2016 and concluded earlier this month. The goal was to gauge community opinion on matters related to residency.

“We’re pleased with the participation and the results,” said Ietsénhaienhs Rhonda Kirby, who is responsible for the proposed Residency Law on behalf of the MCK. “We were able to determine that there is overwhelming support for the creation of a Residency Law, with 87% of respondents agreeing and only 7% saying ‘no.’ This is highly complementary to the consensus reached through the Community Decision Making Process (CDMP) for the *Kahnawà:ke Membership Law* to defer sections that pertain to Residency until the community decides whether to have a separate Residency Law. This bodes well for collecting a community mandate to move forward.”

The proposed Residency Law would start by removing sections from the Membership Law, with the intent to make it simpler to address and administer the law.

Due to possible implications that could result from Canada’s upcoming amendments to the Indian Act in July (due to the *Descheneaux Decision*), the Kahnawà:ke Legislative Coordinating Commission approved the use of the CDMP Urgent Process for the proposed Residency Law.

“With the results now complete, we can move forward with our action plan,” Ietsénhaienhs Kirby added. “We will make a brief presentation at the upcoming Spring Community Meeting on Tuesday, May 9th, followed by a special Information Session on May 16th. We will then ask the Community for a mandate on May 23rd at an official CDMP meeting. If that is successful – which the survey indicates it should be – we will begin Hearings the following week.”

Who Can Live in Kahnawà:ke? A Residency Opinion Poll

The following survey was conducted from December 2016 to early April 2017. The total of people who participated was 124. The results should help the MCK in its work in the process to create a Residency Law for the community. While opinions vary, as expected, the support to move forward with a separate Residency Law was noteworthy, with approximately 87% support. Only 7% disagreed, with the remaining undecided. This is probably the most important information that can be taken from the survey at this time, as it shows that those who participated in the survey held the common view as those who participated in the *Kahnawà:ke Membership Law* Hearings to support the removal of the residency sections from the Membership Law.

1	I think each situation is different and the answer is not black and white. it really depends on the circumstances. I do not want to see children being uprooted of being made to feel unwanted. Not a simple solution	4/24/2017 10:23 AM
2	Query the need for a residency law, the membership law is complete; residency/membership criteria is included. In my opinion, a residency law could /would water down the memberlist law, may in fact contravene the membership law, providing loop-holes and or opportunities for residency	4/24/2017 8:49 AM
3	We definitely need a residency law in Kahnawake People need to respect the law and the kahnawake peacekeepers have to be able to enforce it. The Kahnawake Justice Act has to be in force with judges and acknowledge by the Provincial and federal Governments.	4/21/2017 3:46 PM
4	Establish commitments, get guidelines and policies to avoid controversy	4/21/2017 3:33 PM
5	The science is available to determine ancestry-DNA- ive seen too many families who were too timid to face these bullies leave. We use to take in others how we put up walls, it's a shame its come to this.	4/21/2017 3:25 PM
6	There are extenuating circumstances for most of these situations	4/21/2017 3:20 PM
7	My thoughts on marry, date, common-law is as i always knew then to be: that yo leave. It would apply to me, so it should apply to anyone! For me its about respect. I respect your decision to love who you want, so respect our decision to look out for our future generations home. Hopefully we do not have issues with non-kahnawake residence coming here to claim land because they are new "status Indians".	4/3/2017 2:27 PM
8	I think non -members -non Indian should apply	4/3/2017 2:21 PM
9	We should not be letting anyone living here who is residing with a white person/ non native/french	4/3/2017 1:59 PM
10	It needs to be finalized soon. Causing too much chaos and family issues. Every person on KKR list need to verify their P.O. Box # with their home.	4/3/2017 1:56 PM
11	There were a number of undecided answers checked because there is no simple answer which can be given as these particular questions leave open for discussion.	4/3/2017 1:51 PM
12	It's a privilege and should be respected.	4/3/2017 11:10 AM
13	Please keep our homeland for Onkwehonwe people only. It's our only hope to survive and be identified as Kanienkehaka. Nia:wen.	4/3/2017 11:04 AM
14	I understand the goal to protect our land and who stays with us but there is no place for racism in Kahnawake. An application process to live here and what is the best way to determine if an individual would benefit the whole of Kahnawake and be a good fit for Kahnawake.	4/3/2017 10:58 AM
15	The group that demonstrates outside of people's homes demanding they leave as they are married to a non native should stop. People married or living with a non native should be able to live in kahnawake. what trouble are they causing? NONE! If they have kids, the kids are of a mixed culture, part mohawk. The mohawk should not be taken off the Kahnawake membership register. A person who did not group up here but is part mohawk should not be put on register. However a c-31 who grew up here all their life should be put on the register. The group mentioned above is so racist and radical. what is next for them? Get rid of two spirited people? Get rid of light skinned mohawks? That is what is going to, scary. There is too much hate in Kahnawake.	4/3/2017 10:51 AM
16	Residency issues are not black and white. I think there are situations where residency by a n on native person would e accepted, such as a live in caregiver or if a member is taking care of a non native relative at their house. children who are adopted should be able to reside in Kahnawake.	4/3/2017 10:44 AM
17	Women who are older and are mohawk "full" and will not have children should be allowed to have their spouses here. Women who marry out, but their children will have 4 great grandparents and marry back in. These are the only two exceptions.	4/3/2017 10:40 AM
18	This idea of residency law is good. I like the concept of separately from Membership. Enforcement will be necessary don't create another law unless it can be enforced. and adjudicated. Creates too much confusion and uncertainty. The law should go to referendum where people feel safe to make a decision.	4/3/2017 10:21 AM

20	Community meetings are not a success, where as radio or local television is more attentive/newspaper.	3/31/2017 10:40 AM
21	Historically the women are the custodians of the land, the village, the families, the children. the only time anyone was brought into the village, family clan was to replace someones lost, but that person was subject to the rules of the village. If the person was or acted contrary to the good of the community they would be killed, abandoned, forced to leave the community. People who do not follow our original way of knowing, being, must be made to leave. this is our town, lets start acting like it!	3/31/2017 10:32 AM
22	Reserves are slated for Natives Only. Since when do we need these changes. We need to keep our culture, heritage. Like adding more milk chocolate, you dilute it.	3/31/2017 10:10 AM
23	There is alot of grey areas with these questions. Perhaps a letter of intent should be required as to why someone who just received a federal band number and who never lived here before want to have a probationary period. Is it to learn their culture or just for tax reasons?	3/31/2017 10:05 AM
24	A residents law open the doors to more people suing the community because their right is being denied. How do you pick and choose who can and can't live here. Once they're here how do you get rid of them? How man can stay?	3/31/2017 9:47 AM
25	Tough subject matter, i see both sides but sometimes you get these unique cases where it isn't so black and white. Good Luck with the residency stuff though. O:nen	3/30/2017 1:05 PM
26	It's such a heart breaking decision to make, for families if their children choose to love a non-native. If you are a person know to be un-desireables, then hell yah, kick them out, but not if you are a law abiding person who just fell in love with a mohawk. We should also make sure that if children are born of this hook-up, they also have to strive to learn the culture language, and not be assholes. Otherwise they can lose the privilege of living here in Kahnawake.	3/30/2017 11:43 AM

30	#2 and #7 only if they were born, raised and continued to reside in the community. #11 depends on non member resident with lineage from kahnawake Less then 4ggp then no. Non member resident from another community then yes.	3/30/2017 11:19 AM
