Respect the fencing and planted areas this season

(Kahnawake – 29, Onerahtókha/April 2022)

The Kahnawà:ke Environment Protection Office (KEPO) would like to request that community members please respect the fencing and planted areas along the shorelines this bullhead fishing season.

These areas along the shoreline and the worksites have been hydroseeded and planted with native species last fall. The plantings are very sensitive to disturbance during this crucial growing period.

KEPO would like to thank the community for its patience and cooperation throughout the Recreation Bay restoration project. Let us all do our part to respect Mother Earth and the restoration efforts.

For more information, please contact us at **450-635-0600** or environmentprotection@mck.ca.
