## Kateri Hospital area Sewer Line Replacement

(Kahnawake – 11, Onerahtohkó:wa/May 2021)

The Capital Unit of the Mohawk Council of Kahnawà:ke would like to inform the community of the upcoming project to replace the sanitary sewer lines in the Kateri Hospital area. The work for this project is scheduled to start on Tuesday, May 25, 2021, and will continue until the end of August 2021.

This project will include replacing the sanitary sewer system, an additional pressure sewer line, and a new Lift station. Upon completion of the previously mentioned works, the road will be resurfaced with new asphalt. Residents in the area may be inconvenienced with temporary loss of water, dust, and noise from trucks and equipment, detours, and temporary road closures. Proper road signalization will be installed to warn of the construction limits. The community will also be notified when a road closure is scheduled.

All private properties affected by the work in this area (e.g., driveways, walkways, hedges, and/or fences) will be repaired or replaced prior to the completion of the project.

Shown below is a map of the general area. The shaded area indicates where the works will take place.

Your patience throughout this project is greatly appreciated. Please contact the Technical Services Office at **450-635-1016** if further information is required.
