Condominium Survey

For Immediate Release

(Kahnawake – 7, Ohiarikhó:wa/July 2017) The Mohawk Council of Kahnawà:ke is currently exploring the possibility of building a condominium project and the first step is a survey.

The survey states:

"With an ever growing community, housing remains an important focus for the Mohawk Council of Kahnawake. One of the ideas being explored is the Green Tree Living Condominium Project, which aims to introduce community members to an integrated multi-unit living environment. This condominium project could potentially include additional services and amenities, such as lawn care, maintenance, gym access, café/restaurant, greenhouse, study area, pool or other shared spaces. This survey serves as a tool to find out who would be interested in living in such an environment and eventually to get feedback from potential residents in terms of what they would like to see incorporated into this style of living,"

If this type of living environment interests you, please take the survey online at www.kahnawake.com/condo.
