## PUBLIC SERVICE ANNOUNCEMENT

### Secondary Emergency Intake Pipe

**(Kahnawake – 6, Seskéha/August 2012)** The Capital Unit of the Mohawk Council of Kahnawà:ke would like to inform all Kahnawà'kehró:non that work is currently in progress in the Johnson's Bay area. The New Water Treatment Plant requires the installation of a 16" diameter intake pipe to insure proper water supply to the Community in the event of a problem with our existing intake structure.

To ensure the proper installation of the new pipe, it is required to place a base made of large rocks under the intake structure. Since the large rocks may not be visible and may be just below the water level, **we are asking boaters and recreational water users in the Johnson's Bay Area to be cautious.** Signalization will be installed to warn of the dangers.

Your patience throughout this project is greatly appreciated and we apologize for the temporary inconvenience. If further information is required, please contact the **Technical Services Office at 635-1016.**

#### **SUGGESTED INSTRUCTIONS FOR MEDIA**

Please mention until periodically at your discretion.

For further information on this release contact Gene Diabo at 450-632-7500, ext. 2254
