Tests indicate NO asbestos in air near remediation sites, Community Information Session tonight

For Immediate Release

(Kahnawake – 27, Seskéha/August 2019) The Mohawk Council of Kahnawà:ke (MCK) wishes to advise community members that air sampling results received today confirm that no asbestos fibers have been detected in the air around the remediation sites in the new development on Lot 106.

The MCK would like to remind Kahnawa'kehró:non that a Community Information Session will take place this evening in regard to the current situation.

The agenda of the session is as follows:

- Summary from Public Safety Unit
- Presentation by Shawn Doherty, P. Eng.
- Presentation by Roberto Lucchini, MD
- Question & Answer Period

The Information Session will take place at 7pm at the Knights of Columbus Hall. Ratsénhaiensh Frank McComber, who holds the Public Safety portfolio for the MCK; Ratsénhaiensh Clinton Phillips, who holds is the lead on the Environment Portfolio, and Commissioner of Public Safety Lloyd Phillips will also be present.
